

# SUSTAINABLE MANAGEMENT OF MARINE AND COASTAL AREAS FOR SOUTHEAST ASIA

PROJECT CODE: 61037-EPP-1-DE-EPPKA2-CBHE-JP

## Introduction

MARE is an international collaboration project linked among research and educational institutions from Malaysia, Germany, Italy, Vietnam, and Estonia.

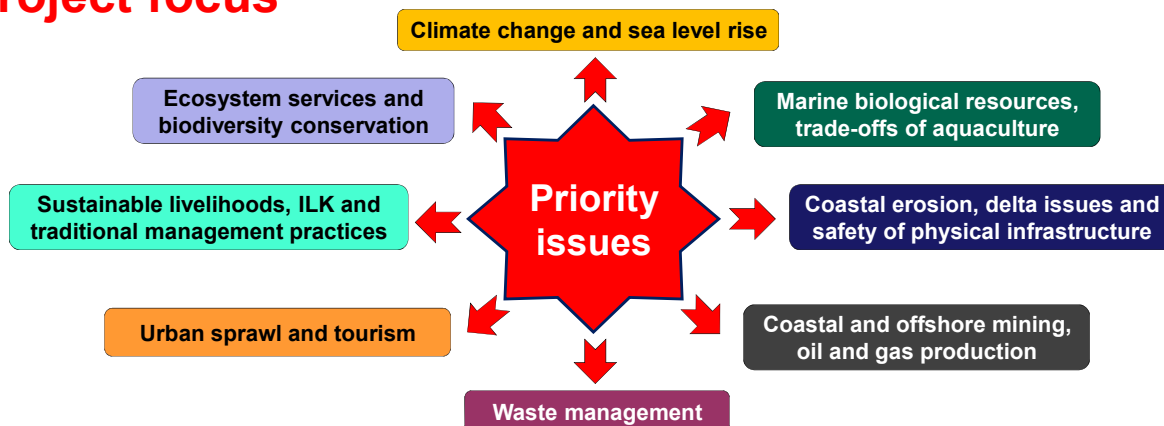

The project is funded from the European Union (EU) under the Erasmus+ for a duration of 2020 – 2023. The grand for CTU is 75,172 Euro.

## Project aims

The project aims to develop adaptive, end-user-oriented and internationally-relevant curricula to support sustainable management and governance of coastal and adjacent marine areas of partner countries and to create sustainable feedback mechanisms to end-users, ensuring practical relevance of teaching contents and knowledge co-production opportunities.

## Project focus

The action will mostly focus on bachelor's and master's levels (revision of curricula, development of new courses and modernization of existing ones, launching of new specialization streams), however it will also address selected aspects of doctoral provision (development of multidisciplinary research agenda, development of organizational capacity for networking and joint research).
